

The Chinese Communist Party (CCP) announced that, beginning January 1, 2015, it would stop the practice of using executed prisoners as donors for organ transplants, and that donated organs would be the sole source for organ transplants. However, according to the *World Organization to Investigate the Persecution of Falun Gong (WOIPFG)* . its latest telephone investigation conducted during the period of January to November 2015, sampling 165 hospitals designated to perform organ transplants and some institutes for voluntary organ donations, found that:

1. Organ transplants are still being performed in large quantities with short wait times and abundant donors, which a random supply of voluntary donors that cannot be accounted for;
2. China's official organ donation institutes claim that donors are very limited and successful matches are few and far between;
3. Some surgeons have frankly acknowledged that the Chinese Communist Party's (CCP) campaign of organ harvesting from living Falun Gong practitioners is still ongoing;
4. After June 2015, the practice of forced organ harvesting accelerated once again.

Over the years, the CCP has been reaping exorbitant profits from harvesting the organs of live Falun Gong practitioners. In the past, the CCP falsely claimed that the organs were from "death row prisoners", but now the rhetoric has changed to "the donated organs". These are different lies told at different times. The facts have proven that since 1999, the CCP has been continuously harvesting the organs of living Falun Gong practitioners, up to this day, and the number of organ harvesting cases is enormous. And sometimes, the organ harvesting accelerates.

Through more than 9 years of investigation, WOIPFG has reached the conclusion that: harvesting the organs of live Falun Gong practitioners by the CCP is a Nazi-like crime of the state. The criminal group of the CCP, headed by Jiang Zemin, has been using the entire state apparatus, including the military, armed police, the judicial system and medical institutions, to commit genocide against Falun Gong practitioners through the means of organ harvesting for transplants across China, and the number of practitioners slaughtered through such means is believed to be in the millions. (For details, please read *THE FINAL HARVEST: A Comprehensive Investigation into the Chinese Communist Party's Live Organ Harvesting of Falun Gong Practitioners* <http://www.upholdjustice.org/node/284>)

The persecution of Falun Gong is genocide and a crime against humanity. This offense is tantamount to crimes committed by the Nazi war criminals. All parties who've taken part in the offense must bear responsibility and be subjected to moral and legal punishment, regardless of whether the involved party is a nation, organization or individual. It is the duty of every nation,

organization and individual to engage themselves fully in investigating and putting a stop to the crimes against humanity committed by the Chinese communist regime.

The World Organization to Investigate the Persecution of Falun Gong (WOIPFG) remains as steadfast as ever to its mission, to investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigations, no matter how long they take, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society!
