

Many Chinese people are now well aware of [the destruction that the communist party has caused](#) to China and Chinese people in just a few decades, and most people hold Russia responsible for delivering communism to China.

A few years ago, the Russian Embassy sent a greeting to Chinese on China's national day on the Weibo site, (similar to twitter), [but met with a complete adversarial response.](#)

Is Russia alone responsible for the rise of the Chinese Communist Party (CCP)?

Let us check this recording, made in 1967, by Mr. [Myron Fagan](#) ----- talking about the origin of the communist party and its founder:

*(Myron Coureval Fagan (31 October 1887 - 12 May 1972) was an American writer, producer and director for film and theatre and an ardent anti-communist in the late 1940s and 50s.) -----
